SCH

Height Adjustable Center Channel Speaker Stand

PRODUCT DESCRIPTION

Designed for center channel speakers up to 50 lbs, SCH offers ideal positioning for lifelike dialogue and perfectly balanced front-stage sound. Adjustable from 15" to 24" in 1" increments, SCH lets you fine-tune placement to sit tight beneath your TV or projector screen and align with your listening position. Overbuilt from steel, SCH delivers exceptional rigidity to keep vibrations at bay. Its top plate is reinforced with a precision-formed bend to prevent resonance, while a fifth center foot ensures optimal floor coupling for further damping. Dual columns maintain perfect horizontal alignment of your speaker, add mass to push resonant frequencies lower, and enhance stability compared to single-column designs. With a clean, minimalist aesthetic that complements any setup, SCH keeps the focus on your home theater's sound.

FEATURES

- Height adjustable from 38.1 - 61 cm (15" - 24") in 2.5 cm (1") increments
- Universally compatible with center channel speakers weighing up to 50 lbs
- Solid baseplate and reinforced top plate reduce unwanted resonance
- Internal cable management conceals cables and speaker wire
- Interchangeable spiked or domed feet
